

June 2018

In typical Boilermaker fashion, the Purdue Honors College is a step above its peers at other institutions. In the five years since we opened our doors, applications have increased to a level never anticipated.

So what exactly does an Honors College offer Purdue students beyond the quality education that everyone receives who steps onto this campus? The Purdue Honors College serves the student who wants to push harder, achieve more, learn more, and make a difference.

The goal of the Purdue Honors College is to create and foster well-rounded, well-educated global leaders. We work to create student leaders on campus who impact society from their very first semester. The four pillars, our primary tenets, come together to help us accomplish this mission. They are leadership development, undergraduate research, community and global experiences, and interdisciplinary academics.

Our greatest needs are:

- Scholarships for students who are admitted but cannot afford to attend
- Teaching and research support for faculty to deliver on high student motivation to learn
- Resources so the college is positioned to respond to needs and opportunities

Our talented, driven students are the next generation of Boilermakers who will move the world forward. As alumni and friends of Purdue, it is important that we help them achieve their goals.

Thank you for supporting the mission of the Honors College. Your gift is valued and appreciated!

Warmly,

Rhonda Phillips, Dean
Honors College
